

Historical Lectures in summary

Thursday 31 August 2023

Engineering and Technology (17:00 - 19:00)

time	[id] title	presenter
17:00	[16] Prof LI Liang-Bin	
	- [1] Synchrotron radiation X-ray scattering - in situ view of polymer film processing (2021-12-02)	
17:20	[17] Prof. LIU Wen	
	- [1] Introduction on Optoelectronic Industry (2021-11-23)	
	- [2] The challenges of 5G communication to optical transmission core devices (2021-11-23)	
	- [3] Photovoltaic Modern Agriculture in China (2021-11-23)	
18:20	[18] Prof. NI Yong	
	- [1] Solid mechanics and material computation(2014-11-04)	
	- [2] Phase transition mechanics analysis of microstructure evolution of thin film materials (2014-11-06)
