

Historical Lectures in summary

Thursday 31 August 2023

Material Science and Condensed Matter (19:00 - 21:40)

time	[id] title	presenter
19:00	[19] Prof. CHEN Xian-Hui (CAS Academician)	
	- [1] Evolution in quantum matter and its application (2021-12-14)	
19:20	[20] Prof. JIANG Jun	
	- [1] From AlphaGo to Material Genome Initiative and Design (2018-11-27,29)	
19:40	[21] Prof. LI Xiao-Guang	
	- [1] Superconductivity (2019-11-26,28)	
20:00	[22] Prof. LUO Yi	
	- [1] Approaches to the limit of optical imaging (2021-12-28)	
20:20	[23] Prof. XIAO Zheng-Guo	
	- [1] New photovoltaic cells - opportunities and challenges (2021-11-09,11)	
20:40	[24] Prof. TAO Jing	
	- [1] Electron scattering and its application (2021-12-23)	
21:00	[25] Prof. XU Ning	
	- [1] Phase Transitions in Soft Matter(2014-10-21,23)	
21:20	[26] Prof. YUAN Jun-Hua	
	- [1] Physical mechanisms of bacterial motility(2019-11-12,14)
